Registration information:

DE students are required to register using an attached Delaware State Fire School Registration Form. Please select choices in the drop down boxes or write in course number. Please note, we are sharing seats for each of the 10 courses. **If all seats are full, you may be moved to your second or third choice.** **Deadline for registration is September 1, 2025.**

This is a Delaware State Fire School sponsored weekend at the NFA. There is no cost to Delaware Affiliated students for course registration, lodging, or on-campus meal ticket. The only cost to the attending student is travel to and from the NFA campus.

We encourage all interested Delaware students to register promptly. Once the registration deadline has passed, NFA Weekend Coordinator Kenneth Getty will compile a roster to submit to the National Fire Academy on behalf of the Delaware participants.

For more information contact the NFA Weekend Coordinator, **Kenneth Getty**, at the Delaware State Fire School a 302-739-4773 or by email a kenneth.getty@delaware.gov

Special Notice!

National Fire Academy online application requires FEMA SID.

National Fire Academy students applying for on-campus (10-/6-/2-day), off- campus (10-/6-/2-day), and NFA Online courses need to register for a FEMA Student Identification Number (SID) prior to taking any NFA delivery course. This number is used in place of a Social Security Number and is obtained through the Center for Domestic Preparedness (CDP). If you are planning to take a NFA course this unique number must be submitted on your application to receive a certificate. Use the following link to begin the registration process - [How to apply for a National Fire Academy course \(fema.gov\)](https://www.fema.gov/nfa/how-to-apply)

Anyone entering the National Emergency Training Center (NETC) campus unescorted is required to show photo identification that meets **REAL ID Act** standards. The purpose of the **REAL ID Act** is to stop terrorists from evading detection by using false identification.

Visitors will need one of the following current forms of identification to access our campus:

A U.S. passport or passport card or “federal” Delaware Driver’s License. A federal employee personal identity verification (PIV) card or military (active, retired, reserve, dependent or civilian employee) ID card.

Note: Real ID will be required to enter the NFA campus beginning May 7, 2025.

Additional information for on-campus courses may be found at <https://www.usfa.fema.gov/nfa/on-campus-students/>. Please familiarize yourself with this information prior to attending NFA State Weekend courses.

Course details:

W0549 – Emergency Response to Terrorism: Strategic Considerations

This updated 2-day course is designed for responders who may be responsible for initial and expanded command of incidents involving terrorism. The course is intended to build upon the students' existing skills as Incident Commanders (ICs) and practitioners of the Incident Command System (ICS) with knowledge of the National Incident Management System, the National Response Framework and terrorism.

The class will assist the officers in preparing an effective response to the consequences of terrorism. ICs must be prepared to operate as part of a multiagency, multidiscipline and multijurisdictional response. The course uses lecture supported by case studies and practice scenarios to address the command and control challenges that will likely confront the IC. This will enable the students to apply their knowledge of pre-incident planning, managing emergency incidents, and operating as part of a Unified Command structure to ensure the safety of responders while bringing the incident to a successful conclusion.

W0602 - Shaping the Future

This 2-day course is designed to assist first- and second-level supervisors and Company Officers (COs) in developing knowledge and skills in contemporary approaches to organizational problem-solving.

Topics include:

- Use of creative approaches to identifying trends within their organizations.
- Applying problem-solving methodologies.
- The importance and application of continuous improvement within organizations.
- How to quantify problems and solutions.
- Factors in organizational and individual resistance to change.
- Strategies for implementing change.

The course incorporates facilitated, student-centered methodologies, including lecture, small and large group activities, and individual assessments.

W0296 - Command and Control for Company-Level Operations

Command and Control for the Company Officer is a 2-day course intended to provide a practical application of knowledge and skills for company officers or those aspiring for that next level.

The course builds on the following topics discussed in the online self-study course Q0891, "Foundations of Leadership and Operations for the Company Officer":

- Defining the company officer.
- Preplanning.
- Managing incidents.
- Operational communications.
- Safety.

W0455 – Strategy and Tactics for the Initial Company Officer

This 2-day course is designed to meet the needs of Company Officers (COs) responsible for managing the operations of 1 or more companies during structural firefighting operations. This course is designed to develop the management skills needed by COs to accomplish assigned tactics at structure fires.
